The New College Admissions Timeline: Is Your Family on Track?

Although in the past, high school students could start thinking about college towards the end of junior year, 2017 has ushered in several major changes to the college admissions process that make it essential for families to begin focusing on the college search far earlier in order to be competitive for admission, merit scholarships and financial aid.

The Ferncroft Country Club located at 10 Village Road in Middleton, MA will be sponsoring a free workshop for parents of public, private and parochial school students in grades 9-11 on Thursday, March 16 beginning at 7:00 pm. Marie Lucca, President of Crimson College Consulting will explain the earlier deadlines, the changing standardized testing schedules, and the new multi-year application being put forth by nearly 100 public and private colleges whereby students begin to upload their essays and projects *as soon as they begin high school*. Come learn everything you need to know to prepare your family for a successful and low-stress college admissions adventure!
